How to import your products into the SISSA Digital Library from ORCID
ORCID stands for **Open Researcher and Contributior ID** useful for the unique identification of authors

- The ORCID profile collects the scientific publications indicated by the author from external databases: (CrossRef, DataCite, Researcher ID, Scopus...)

- You can import your publications into the Institutional Repository SISSA Digital Library from your ORCID profile
The first step for creating an ORCID profile is to connect to the site:
